Learn to Skate Program

Class is taught by Renee Stehman. Renee has YEARS of skating experience. You can always find her floor guarding on the weekends and giving skating tips.

What is learn to skate?

- Learn to skate will teach a series of balance, control and agility skills. This will prepare skaters for recreational skating or any skating sports.
- Provides kids (and adults) with the best foundation for figure roller skating, hockey, and every day skills. Each week will focus on different skating techniques
- Kids, and even parents, will learn and gain confidence on four wheels.
- Introduces a healthy, life long activity at an early age.
- Promotes fun, fitness, and group participation.
